PROFESSIONAL SUMMARY

Full-stack developer specializing in modern web technologies across both frontend and backend environments. Experienced in building scalable, high-performance applications using React, Vue.js, Redux, Vuex, TypeScript, Laravel, and MySQL. Strong background in software architecture, API design, UI/UX Design and Development.

Holds a Master's degree in Information Systems and a Bachelor of Science in Software Engineering. Passionate about AI development and prompt engineering.

SKILLS

Technical Skills: React, Redux, Vue.js, Vuex, Pinia, Laravel, Next.js, JavaScript (ES6+), Tailwind, Bootstrap, API Integration, Rest, MySQL, AWS

Soft Skills: Problem-Solving, Debugging, Analytical Thinking, Fast Learner, Team Collaboration

EXPERIENCE

Full Stack Developer

Innovative Designers

November 2023 - August 2025, Kohat, Pakistan

- Contributed to the development and maintenance of BridgePro LMS, a scalable platform serving 20,000+ students.
- Built and enhanced full-stack features using Vue.js and Laravel, improving system performance and user experience.
- Refactored legacy code, fixed critical bugs, and optimized MySQL queries to increase stability and speed.
- Implemented role-based access control, real-time chat (Pusher), and Zoom integration for live classes.
- Developed core modules including assessments, attendance tracking, financial management, and automated PDF document generation.
- Maintained and continuously improved the system while working on multiple projects simultaneously.

Freelance Frontend Developer

Upwork & Fiverr

April 2022 - Present, Remote

- Delivered 13+ client projects focused on modern, responsive web interfaces using React and Vue.js.
- Built and integrated APIs, authentication, forms, and payment workflows based on client requirements.
- Managed projects independently from requirement gathering to deployment, ensuring on-time delivery and client satisfaction.

React Developer Intern

Nextpak Agile Solutions

August 2023 - October 2023, Islamabad, Pakistan

- Contributed to the live freelancing platform Tealpot (www.tealpot.com) using React and Next.js.
- Implemented new features, fixed bugs, and improved UI responsiveness.
- Worked with Firebase for authentication and real-time data updates while collaborating on a shared Git codebase.

EDUCATION

Bachelor of Science in Software Engineering

CECOS University Peshawar - Pakistan • 2019 - 2023

Master's Degree Programme in Information Systems

University of Jyväskylä - Finland • 2025 - Present

PROJECTS

BridgePro

Learning Management System • <https://bridgepro.ca/> • November 2023 - August 2025

- Contributed to the development of a large-scale LMS built with Laravel and Vue.js.
- Enhanced course management features, optimized performance, and improved user engagement across the platform.

Tealpot

Freelance Platform • <https://www.tealpot.com/> • August 2023 - October 2023

- Contributed to frontend development during internship, focusing on feature enhancements and bug fixes using React and Next.js.

Moby Insure

Insurance Company • <https://www.mobyinsure.com> • September 2023 - October 2023

- Built a React-based website for an insurance company with a clean, modern UI and intuitive user experience.

PAJAMAS

Crypto Project • <https://www.pajamas.cat/> • February 2024 - April 2024

- Developed a community-focused website using React and Aceternity UI, enabling wallet connections and token purchases.
-
